$\qquad$

## Three 3's In a Row

Directions: Find someone who can do or explain what's asked for in the boxes (one person per box). Ask the person to initial your box and tell you the answer. Then you summarize their answer in your box. Note: You are the only person who should be writing answers in your boxes.

| Provide a definition for..... | Initials | Explain how....... | Initials | Discuss the term..... using personal examples.... |
